Wise Alloys Donates Cash, Services and Can Stock for Hurricane Relief

MUSCLE SHOALS, Ala. – Wise Alloys has raised more than \$19,000 for the American Red Cross and destined for relief effort in hurricane-stricken states like Louisiana, Mississippi and Alabama

Wise Alloys launched a donation drive in early September to aid these efforts, raising more than \$9,000 in employee contributions, which the company had agreed to match dollar-for-dollar. Additionally, to help several families who were relocated to the Shoals Area because of the hurricane, Wise Alloys agreed to pay their living expenses, including rent and utilities.

“We are willing to do whatever it takes,” said Wise Metals Group President and Chief Operating Officer Randall R. Powers. “We couldn’t make a huge difference in the geographic area of the disaster, but for the people who made their way here, we are using our local connections to make a real difference.”

The company also donated aluminum to use for canned water sent to hurricane victims. The first shipments of 250,000 cans recently arrived in the area and those companies involved, including Wise Alloys, are planning to produce approximately 5 million cans for ongoing relief efforts, according to the Aluminum Association.

About Wise Metals Group

Based in Baltimore, Md., Wise Metals Group LLC includes Wise Alloys, the world’s third-leading producer of aluminum can stock for the beverage and food industries and an environmentally friendly company using recycled aluminum in the production of its can stock; Wise Recycling, one of the largest, direct-from-the-public collectors of aluminum beverage containers in the United States, operating shipping and processing locations throughout the United States that support a network of neighborhood collection centers; and Listerhill Total Maintenance Center, specializing in providing maintenance, repairs and fabrication to manufacturing and industrial plants worldwide ranging from small on-site repairs to complete turn-key maintenance.
